New Owner Timeline

Owner Name:

Property Address Unit #:

Residence:

Deadlines are based on the close of escrow (COE) date and the time frames outlined in the CC&R's.

Deadline Date	Requirement
	Close of Escrow
	Install acceptable window coverings (90 days from COE).
	Commencement of approval Future Work and/or Alterations (lyearfrom date of Approval).

Application Submittal / Review Process

Owner
Completes and forwards:
1. Property Improvement Form
2. Application Fee
3. Neighbor Awareness Form
4. 3 sets of plans
5. Contractor insurance, license, permits
6. Scope of work, dates, specsheets etc
7. Construction schedule

Owner
Receives proof of receipt statement.
Action Property Management
Receives and forwards all submittals to ACC Committee

Architect and/or Consultant
To review plans as deemed necessary by the Committee

Architectural Committee (AC)
Has 60 days to review/approve submittals

Approved Plans

Returned to owner:
1. One copy of the property improvement form
2. One copy of approved plans
3. If required, submit plans and proof of AC approval to the MAC. See Master Design Guidelines.

Denied Plans

Returned to owner:
1. One copy of the property improvement form
2. One copy of denied plans

400 CHINA BASIN STREET HOA
Quick tips for an application submittal package

Window Coverings

Owners have ninety (90) days from the close of escrow to install appropriate window coverings. If for another modification, the Board of Directors shall review each and every ACC Application.

Meetings

The 400 China Basin Street HOA Board of Directors or its Architectural Committee (ACC) meets as often as necessary. The members of the ACC shall determine the date and time of the meetings.

Where to submit applications

400 China Basin Street HOA
co: Action Property Management
655 Montgomery Street, Suite 1190
San Francisco, CA 94111
managerassistanthelp@actionlife.com
(800) 400-2284

Application submittal packages must include:

1. The 400 China Basin Street HOA Property Improvement Form *(Exhibit A)*
2. Check made out to the Association for Application Fee of $50.00
3. Plan and specifications (3 copies). One copy will be returned to the Owner. The 400 China Basin Street HOA (hereinafter the "Association") II retain two copies.
4. Neighbor Awareness Form *(Exhibit B),* 1 copy.
5. Color photographs (2 copies), where applicable. Photographs will ***not*** be returned to the Owner.

All forms are included in this packet or can be obtained from Seabreeze Property Management Company.

Important

Read the attached Architectural Guidelines carefully before submitting plans.

Owners are required, at their sole expense, to obtain all necessary permits and approvals from the City of San Francisco and County of San Francisco. Furthermore, governmental approvals are in addition to, and not in lieu of, ACC approvals.

The ACC shall have the right to consult with its own Design Professionals at the Owner's expense.

PURPOSE

The 400 China Basin Street HOA (hereinafter "Association) has a Board of Directors or/and an Architectural Committee (ACC.) Some Future Work or Alterations must be reviewed and approved by one or both the Board of Directors (BOD) and the ACC Committee. If there are no BOD or ACC, then the Developer will review ACC Applications. All alterations and modifications must be approved in writing.

The purpose of these Architectural Guidelines is to support the Association'se Dclaration of Covenants, Conditions, Restrictions and Reservation of Easements (DCC&R's) and to continue the physical character as established by the initial development of the Association. The intent is to give specific design criteria to Owners for Future Work or Alterations after the completion of original construction.

The Architectural Guidelines are written to preserve a high quality of appearance, to ensure compatibility between improvements, and to enhance the overall value of the Association. The Architectural Guidelines are also set forth to guide Owners regarding the standards for design, construction or Alteration of any building, structure, wall or fence, including, without limitation, the nature, kind, shape, height, materials, exterior color and surface and location.

The Architectural Guidelines are intended to be used by Owners and consultants in preparing drawings for Future Work and/or Alteration design, landscape, and other improvements; and by the Architectural Committee (ACC), BOD or the Developers in reviewing these drawings for conformance with the stated objectives. The ACC reviews proposed improvements for aesthetic purposes only. It is the Owner's responsibility to follow all applicable federal, state and local building codes. Building permits may be required by the City of San Francisco or County of San Francisco. Neither the ACC nor the Association nor Developers assumes any responsibility for failure to obtain such permits. Also, obtaining such permits does not waive the obligation to obtain ACC approval. You must also be familiar with specific easements that may apply to your Property.

No Owner shall alter, and/or otherwise change any Developer or Association Common Area owned and maintained by the Association. Failure to obtain approval of the ACC constitutes a violation of the Project Documents affecting your home, and may require modification or removal of unauthorized work at your expense.

In the event of any conflict between the Association'sA rchitectural Guidelines and the CC&R's, the CC&R's shall control. Capitalized terms are defined in the CC&R's.

Please note: the Term "ACC" shall mean any governing body who has the authority to review and grant ACC Applications, whether it be the Developers, Board of Directors, Property Management or/and ACC Committee.

APPLICATION PROCESS / SUBMITTAL PACKAGE

The Owner reviews the Architectural Guidelines and prepares plans that may include site plans, floor plans, drainage plans, elevations and cross-sections, color and/or material samples, and such other plans and/or samples reasonably required by the ACC. To expedite the approval of plans, they must include each of the items detailed in the following information. Plans that do not contain required details may be returned incomplete and will require that the Owner resubmit the application submittal package. There is no additional cost to resubmit the application submittal package.

Step 1: Improvement plans and details

Applications are to include:

1. A plan that is drawn to scale. 1/8" = TO" on 24"x36" sheets is the preferred scale and size. Plans must be of adequate size to be completely legible.

2. Landscape plans and working drawings (if applicable) including the location, type, size and quantity of all plants proposed. A plant list alone is not sufficient.

3. Grading plans (if applicable). Show where the established drainage pattern may be altered by the proposed improvements. Show the proposed locations of any drain inlets, drainlines and outlets.

4. The nature, kind, shape, dimensions, materials, color, finish and location of proposed improvements must be illustrated on the plan.

5. A description of the materials to be used, including the proposed color scheme. **Attach actual material samples (if available) or color photographs of material samples.**

6. A dimensioned hardscape plan (if applicable) showing new and existing paving, walls, fences, patio covers, drainage, and construction details for all structures accurately described as to materials and complete dimensions.

Other Information

1. If proposed improvements require access over the Association Common Property for the purposes of transporting labor or materials, written permission for such access shall be required. Any such requests must be filed with the ACC prior to the commencement of construction. If permission is granted, a refundable deposit may be required before work begins. The amount of the deposit shall be determined by the AC and the amount shall be at least enough to cover the cost of repairing or restoring damage that is reasonably foreseeable. The deposit shall be refundable to the extent the ACC finds that the work of the proposed Improvement is complete, and that the Association Common Property was not damaged or was restored at least to the condition it was in prior to the commencement of work.

2. The AC may require an additional fee for complex improvements that require extensive review by a third party consultant or architect. The cost shall be the responsibility of the Owner and the Owner will be advised of the cost prior to the commencement of the review.

3. Additional information or documentation, which may be deemed necessary by the AC in reviewing the application package, will be requested from the Owner in order to complete the design review process.

4. The ACC approval is based on the completeness of the application package and clarity of the drawings. Inadequate or unclear information may cause the AC to deny the application or deem the application incomplete. There is no fee for resubmitted plans unless the Board deems necessary.

5. Contractor signs are not allowed to be placed on any portion of an Owner's Residence Association Common Property, with the exception of security or alarm notification signs.

6. The Owner must consult with qualified civil, structural, geotechnical and/or soils engineers, architects, landscape architects, and/or other consultants (Design Professional) to prepare all plans, specifications and guidelines to be implemented in performing the Future Work or Alteration.

7. All Design Professionals must be licensed and in good standing with their respective licensing bodies, and must maintain adequate commercial general liability, errors and omissions, automotive, and workers' compensation insurance.

8. The recommendations of Owner's Design Professionals shall be included with all plans and specifications submitted by such Owner to the ACC.

9. The ACC shall have the right to base any decision to approve or disapprove any Future Work on the recommendations and/or information supplied by such Design Professionals.

10. The ACC does not assume any liability or responsibility for any Improvements, including, without limitation, any future Alterations, constructed by any Owner.

11 .With respect to landscape improvements and/or any other Alterations which will introduce, or redirect the flow of water into, on, the community, each Owner may also obligated to provide a drainage and watering plan and impact study prepared by appropriate Design Professionals indicating, in the opinion of such Design Professionals, the impacts such landscape improvements or Alterations will have on such Owner's Property and neighboring Properties, as well as mitigation measures necessary or appropriate to avoid over-saturation of the Property and neighboring Properties.

Step 2: Fees and Forms

Application packages are to include:

I.The Property Improvement Form *(Exhibit* A, both copies) must be signed and completed by Owner.

2. Check made out to the Association for Application Fee of $50.00.

3. 3 copies of all plans and specifications, (per Step 1).

4. Neighbor Awareness Form *(Exhibit B),* 1 copy.

5. Photographs (2 copies), where applicable.

6. Completed application package to be submitted to the following address:

400 China Basin Street HOA
co: Action Property Management
655 Montgomery Street, Suite 1190
San Francisco, CA 94111
managerassistanthelp@actionlife.com
(800) 400-2284

FORMS AND HOW TO USE

Property Improvement Form: All application submittal packages must include a signed and completed property improvement form *(Exhibits).*

NOTE: Any photos and samples required by the ACC will not be returned to the Owner.

Neighbor Awareness Form: It is the intent of the ACC that the Owner's applicable neighbors be notified of any improvements, which may impact the use and enjoyment of the neighbor's property. Neighbor approval or disapproval of a particular improvement shall only be advisory and shall not be binding in any way on the AC's decision.

Applicable Neighbors Defined

Adjacent neighbor:	Means all neighbors with adjoining property walls/floors/ceilings to the Owner.
Facing neighbor:	Means the applicable neighbors most directly across/facing the Owner.
Impacted neighbor:	Means all neighbors in the immediate surrounding area, which would be affected by the construction of an improvement.

Owner must show the drawings to applicable neighbors and request their signatures on the Neighbor Awareness Form *(Exhibit* B). Signature of this form does not constitute neighbor approval of the improvements. Please include all specsheets of manufactured components, and professional contractor license numbers in your submittal. Please also include COIs (Certificates of Insurance) all contractors involved in your project.

Notice of Completion: Once an Owner receives approval from the ACC and the appropriate permits have been obtained from the applicable governing agencies, construction may commence. Upon completion of the approved improvement(s), a Notice of Completion *(Exhibit C)* along with photographs of the improvements must be forwarded to offices of the management company within thirty (30) days after construction is complete.

ABOUT THE REVIEW PROCESS

The ACC will review each submittal package for completeness and consistency with the Architectural Guidelines. The ACC may approve the proposal or application only if the ACC finds that:

I.The plans and specifications conform to these Architectural Guidelines and the CC&R's.

2. The proposed Future Work or Alteration will be consistent with the architectural standards and esthetics of the community as to quality of workmanship and materials, harmony of exterior design and visibility with respect to existing structures, environment, location with respect to topography and finished grade elevations.

3. Approval of the ACC of any plans or specifications, shall not be deemed to be a waiver by the ACC of its right to object to any of the features or elements embodied in such plans and specifications if and when the same features and elements are embodied in any subsequent plans and specifications submitted for approval for any other building sites.

AFTER THE REVIEW PROCESS

No work shall commence until approval is received. Construction must proceed consistent with the approved application package. All deviations must be submitted for review and approval by the AC prior to commencement of work.

Work other than landscape improvements or window coverings must be commenced within one (1) year from the date of approval.

All work must be performed in a manner consistent with the construction standards of the residence, and with the design and appearance of the Community.

APPEAL PROCEDURE

In the event application submittal packages submitted to the AC are denied, the party or parties making such submission may appeal in writing to the Board. The Board must receive the written request for reconsideration not more than thirty (30) days following the final decision of the Architectural Committee. Refer to Article 10, Section 10.2.2 of the CC&R's for more information.

COMPLETION OF WORK

Within thirty (30) days after construction is completed, the owner is required to submit a Notice of Completion *(Exhibit C)* to the ACC.

The ACC or its duly authorized representative may inspect any work for which approval is required under the CC&R's. The ACC's right to inspect the Work and notify the responsible Owner of any Noncompliance shall terminate sixty (60) days after the ACC have received written notice form the Owner that the Work is completed if the work is, in fact, completed.

ADDITIONAL INFORMATION

RIGHT TO ADOPT ADDITIONAL ARCHITECTURAL GUIDELINES

The ACC may, from time to time, adopt additional, update and/or amend existing Architectural Guidelines. Copies of such additions and/or amendments will be distributed to the membership and kept on file at the offices of the Management Company.

FAILURE TO OBTAIN WRITTEN APPROVAL FOR IMPROVEMENTS

If written approval by the ACC is not obtained, construction shall constitute a violation of the CC&Rs, and the unauthorized improvement may have to be modified or removed at the Owner's expense.

GENERAL DESIGN STANDARDS

<u>Antenna and Satellite Dish Equipment</u>

1 .Owners are prohibited from installing any antenna on the exterior of a Residence for any purpose,

2. Each Owner may maintain individual radio or television antennae systems if located entirely within such Owner's Residence and if such system is not visible from other Condominiums or the Association Property, and provided that such system does not interfere with radio and television reception of other Owners within the Community.

Balcony / .De.ck./Patio

1. Wherever a patio, deck and/or balcony is attached to a Unit, the Owner shall not have the right, without the approval of the Board, or its designee, to paint, alter, remodel or enclose, any such patio, deck and/or balcony and then only in a manner which does not impair the uniform appearance of such patio, deck and/or balcony in comparison with other patios, decks and/or balconies within the Community.

2. Each Owner of a Unit which has a patio, deck and/or balcony attached to it shall have the right to furnish such patio, deck and/or balcony with attractive outdoor furniture in keeping with the architecture of the Community but may not install flooring or cover nor rugs nor carpeting nor mats at any time on these surfaces.

3. The installation of carpeting, outdoor speakers interfering with the quiet enjoyment of neighbors, and additional outdoor lighting is specifically prohibited.

4. Neither planter boxes nor screen material of any kind shall be attached to or suspended from any portion of the patios, decks or balconies nor are penetrations permitted in the facade.

5. Appropriate plants shall be contained within leak-proof pots and all plants shall be by the Board or Architectural Committee before being placed on a patio, deck or balcony.

Contractors

Owners shall ensure that any contractor they hire to perform work adheres to the following:

1. Contractor shall abide by all traffic safety rules and signs, posted and otherwise.

2. Vehicles and other equipment must be parked in such a manner so as not to block traffic or access to fire hydrants, driveways or streets.

3. Contractors will not leave vehicles, equipment, trash, construction debris or material on streets overnight.

4. Owners and residents are subject to fines if their contractor places construction material in the common area trash bins.

5. Contractors should adhere to the following construction hours:

8 a.m. - 5 p.m. Monday through Friday
No construction access on Weekends or Holidays

6. Portable toilets are not allowed.

Adopted by the Board of Directors March 3, 2025

7. Dumpsters are not permitted, unless previously approved in writing by the ACC.

8. Association Common Property shall be protected during construction. The Owner will be responsible for repairing any damage to the Association Common Property caused by their contracted construction activity.

9. If lumber or other packaged material is unloaded in the street, street access must not be blocked and safety warning devices must be used while the material is being unloaded. The maximum length of time that material can be unloaded in the street is three (3) hours. Unpacked material, such as sand or soil, may not be unloaded in the street. Stockpiling in the street or in any Common Area is prohibited.

10. No construction equipment, materials, debris or trash shall be allowed to accumulate or be stored in the Project.

11 .Contractors shall not bring or use alcohol or recreational drugs on site.

12. Contractors shall not bring animals (including dogs) on site. Contractors shall only be allowed to bring into the Project persons who are working with Contractor on the construction project.

13. Contractors must take all necessary safety precautions and shall erect and maintain barriers, lights, signs and other safeguards to give adequate warning to everyone on or near the site of dangerous conditions associated with their construction activity.

14. All construction activity must comply with local governmental codes/permits and plans must be approved by the ACC.

15. The streets must be left broom clean, at the end of the work day. All debris (i.e. paper, bottles) must be removed from the job site on a daily basis. Street washing is strictly prohibited.

16. Contractors shall not play loud radios or other musical apparatus so that the sound extends across property lines. Contractors shall minimize noise impacts from generators or other construction equipment.

17.Contractors must perform work in accordance with Best Management Practices. Owners are ultimately responsible for contractors' violations of Best Management Practices.

<u>Drainage</u>

1. All drainage of water from any Property shall drain or flow into adjacent streets, alleys or open space, and shall not be allowed to drain or flow upon, across, or under any other portion of the Association unless an easement for such purpose is granted.

2. There shall be no interference with the rain gutters, downspouts, or drainage or storm drain systems originally installed, or any other interference with the established drainage pattern over any Subproject, unless an adequate alternative provision, previously approved in writing by the ACC, is made for proper drainage.

Fences and Walls

1. No fences, awnings, ornamental screens, screen doors, sunshades or walls of any kind shall be erected or maintained on or around any portion of any structure or elsewhere within the Community except those that are authorized and approved by the ACC.

2. No gates or other means of access to Association Property adjacent to a Condominium unit are permitted to be installed in any wall or fence of a Condominium unit.

Ground-Water

There shall be no use of ground water within the Association for potable purposes. Construction or sinking of wells for ground water is prohibited.

Holiday Decorations

1. Holiday decorations can only be displayed within Owners' Lots/Condominiums and Balconies and Decks/Patios (if any), provided they do not penetrate Common Property surfaces.

2. No holiday decorations can be attached to the exterior portion of the Unit with any type of nails, screws, metal fasteners or adhesives.

3. Each Owner is liable to the Association for any damage to the Common Property (including holes, tape marks, abrasions, etc.) caused by that Owner or such Owner's family, residents, tenants or guests.

4. The following holiday decorations policy is designed to help avoid adverse visual impact and insure the safety of all the homes and residents.

   a. The acceptable time frame for winter holiday decorations is from the day after Thanksgiving until January 8th. All other decorations must be displayed no more than fifteen (15) days prior to the day of the holiday, and must be removed within seven (7) days after the holiday, unless prior written authorization has been granted by Association to remove them at a later date.

   b. Residents who do not comply will be sent a violation notice.

   c. All holiday lighting must have the "UL" (Underwriters Laboratories) or comparable rating. Outdoor lights must be designed for outdoor use.

   d. Owners are to ensure that all holiday lighting does not create a nuisance for other Owners.

Mineral Exploration

No part of the Association shall be used to explore for or to remove any water, oil, hydrocarbons or minerals of any kind without the approval of the Association Board and only if permitted by local ordinances.

Noise MJtigation / Flooring

1. No Owner shall install any hard surface flooring (including without limitation tile, stone or hardwood floors) or replace any flooring with any hard surface flooring, unless the prior written approval of the ACC has been obtained. A certain type of buffering underlayment will be required by the ACC

2. Owners shall ensure that any changes to the Unit shall not have the effect of increasing the level of noise or sounds that can be heard outside of the Unit above a sound level (impact and airborne sounds) of 55 dB(A). The Underlayment specifications will be determined by the ACC.

3. As a condition to approving the installation or replacement of hard surface flooring, the Owner shall submit to the ACC a construction drawing and specifications clearly indicating the type of flooring to be installed and the underlayment material to be provided to mitigate against impact noises such as footfalls and transmission of music and other sounds.

4. The submission must clearly identify all materials, their composition and thickness, and include a report by an accredited acoustical testing laboratory showing that a test specimen essentially identical to the proposed assembly-achieved a Sound Transmission Glass ("STC") rating of not less than STC 54 and an Impact Insulation Class ("IIC") rating of not less than IIC-52.

5. Following approval and installation of the new flooring assembly, a field test conducted under the supervision of a person experienced in the field of acoustical testing shall be performed in each room in which the flooring is installed to determine compliance with the Community requirements of NIC 52 or higher and FIIC 50 or higher.

6. The required field test shall be completed within thirty (30) days after substantial completion of the work, subject to any extensions granted by the ACC or the Board.

7. Non-compliant systems must be promptly brought into conformance or removed and replaced with approved materials/assemblies.

8. No Owner shall attach to the walls or ceilings of any Residential Unit any fixtures or equipment that will cause sounds, vibrations or noise or unreasonable annoyance to the Owners of the other Residential Units or to the Association Property.

Installation of additional outdoor lighting is specifically prohibited.

Solar Energy Systems

1. Each Owner may submit an ACC Application for solar windows, but there is no guarantee of approval if those solar windows disturb or interrupt the esthetic continuity of the facade.

Sports Equipment

1. No exterior roof mounted mechanical equipment, poles or masts shall be constructed on or attached to any residential dwelling or erected or maintained on any Unit, balcony, patio or yard area.

2. No temporary or permanent basketball standard or backboard, or other sports apparatus shall be constructed, erected, installed or maintained on any Residence, Unit, balcony, patio or yard area, or on any Association Property private street or driveway in the Community.

Temporary Buildings

No outbuilding, tent, shack, shed or other temporary building or Improvement may be placed upon any portion of the Community temporarily or permanently, without the prior written consent of the ACC (Camping- type tents, such as for an overnight children's sleepover, are allowed for a single night only.)

Views

1. Each Owner acknowledges that properties within the Association are not entitled to any legally protected views and no property is assured the existence or unobstructed continuation of any particular view.

2. Each Owner consents to the view impairments caused by the Declarant.

3. The ACC, however may take views from Properties, as well as Visual Links and View Corridors into account in its review and approval of any Future Work.

4. If applicable to your Association and building, In connection with the approval of hedges, shrubs and/or trees, the ACC is expressly authorized to grant approval conditioned on the agreement of the Owner of the Property upon which the tree is planted, to trim, top or prune the hedge, shrub or tree in such manner so that it shall not exceed at any time a stated height deemed acceptable by the AC.

5. If applicable to your Association and building, no vegetation or other obstruction may be installed or maintained on any Lot in such location or of such height as to unreasonably obstruct the view from any other Lot in the vicinity thereof.

6. If applicable to your Association and building, any item or vegetation maintained on any Lot which is exposed to the view of any Owner must be removed or altered to the ACC's satisfaction, if the AC determines that the item or vegetation in its then existing state does not comply with the CC&R's.

Window Coverings

1. Window coverings may consist of draperies, shades or shutters which are either beige or white.

2. The use of aluminum foil, bed sheets, newspaper, paint, reflective tint as window covering, or any other material deemed unattractive by the Association in its Architectural Guidelines or Rules and Regulations, is prohibited.

3. All window coverings shall be of a uniform neutral color harmonious with and not in conflict with the color scheme of the exterior wall surface of the Unit and the Community.

4. Window tinting shall not be permitted.

5. Window coverings shall be subject to the approval of the ACC.

6. All window coverings shall be installed within ninety (90) days after close of escrow for a Unit.

Conditions not defined: Any condition or material not defined within these Architectural Guidelines shall become a matter of judgment on the part of the ACC.

PLAN SUBMITTAL CHECKLIST

O Three (3) Copies of property Improvement Form (Exhibit A)

O One (1) Copies of Neighbor Awareness Form Completed (Exhibit B)

O Three (3) Copies of Proposed Plans
(Must include details of size, design, color and materials listed on each set of plans)

OTwo (2) copies of color photograph of all areas to be improved (front, rear, and side) - Hard copies, 4x6 minimum.
Photographs will not be returned.

O Two (2) copies of the Certificate of Insurance showing 2 (Two) Million General Liability coverage and one (1) Million Auto and Workers Comp Insurance. The Certificates must name both the Association and Action Property Management as "Additional" or Additional Named Insured" in the bottom left hand corner of the Homeowner's and Vendors Insurance certificates. Any system design project will require the contractor carry coverage for Professional (Design-related) Liabilities with a minimum of $500,000.

O If installing new appliances or systems, your submittal must include a specsheet for each component.

O Your Submittal must have a scanned or photograph of all contractors' licenses.

Naturally, all contractors' insurance coverage must not have the condominium / HOA exclusion.

PROJECTS BEING SUBMITTED: (Please briefly describe planned improvements)

1. ACC approval does not waive any Federal, State, or local regulation.
2. ACC approval does not constitute acceptance of any technical or engineering specifications, and Association assumes no responsibility for such. The property owner is responsible for all technical and engineering specifications. The AC reviews for aesthetic purposes only.
3. An oversight of a provision of the CC&Rs, or Architectural Guidelines, does not waive the rule. Corrections may be required.
4. Approval of drawing is not authorization to revise the original drainage system installed by the home builder/Licensed Contractor and approved by the County/City.
5. Use of property owned and/or maintained by the Association for construction access or storage is not permitted, unless authorized by the Association and the applicant signs a waiver of damage and posts a construction deposit for repairs of damage to property owned and/or maintained by the Association.
6. The property owner is financially responsible for any repairs to property owned and/or maintained by the Association damaged by a property owner's project.
7. Building materials may not be stored on streets, sidewalks, common areas, or on property owned and/or maintained by the Association. Streets may not be obstructed by construction equipment.
8. Approval of drawings is not authorization to proceed with improvements on any property other than the Property reviewed by the ACC and owned by the applicant.
9. All construction, reconstruction or alteration of any structure must take place wholly within and upon property owned by applicant.

My neighbors have seen the plans I am submitting for the ACC review (see above verification). I, as the owner, certify that I have requested that my adjacent and impacted neighbors sign this statement confirming notification. I understand neighbor objections do not in themselves cause denial of the plans. If the Home is not yet sold or occupied, I have had a builder representative sign in the appropriate box to confirm that the Home is not occupied.
